VOLUME 10

To manufacture quality tooling
you need the best machinery.

Southeast Tool, Inc.

OUR MISSION STATEMENT

1. To satisfy the customers needs.
2. To provide the highest quality tooling available at the most competitive price.
3. To help and assist the customer with custom manufactured tooling and application issues as well.
4. To trouble shoot and solve the problem.

TERMS AND CONDITIONS OF SALES

Terms: All accounts will be given Net 30-day terms if credit is deemed satisfactory by the credit department. A 1-1/2% service charge will be added to all accounts past due. Any account over 60 days will be placed on credit hold until the account is brought current. All invoices correspond with date of shipment, not receipt of goods or invoice. **A \$25.00 service charge will be added for all returned checks. A \$15.00 service charge will be added for all invoices paid by wire transfer.** Southeast Tool, Inc. sells only through a vast network of distributors world wide. Please call or e-mail for the one in your area.
Prices subject to change without notice.

Freight Policy: F.O.B. Conover NC. Any shortages in transit should be filed with the carrier. Any other shortages should be filed with Southeast Tool, Inc. no more than 10 days after receiving goods. Catalog orders over \$500.00 net will be shipped free ground freight prepaid within the continental USA; this excludes truck shipments.

Drop Shipments: All drop shipments are subject to regular terms and minimum order requirements. COD drop shipments will not be accepted.

Product Guarantee: All tools are warranted to be free from defects in workmanship. Due to the inherent nature of solid carbide, we cannot guarantee this material. **All warranties are void if tools are altered in any way (including sharpening).**

Returning Goods: All returns must be given prior consent by the company. A RGA # will be issued and must be clearly placed on the outside of the package. Southeast Tool, Inc. reserves the right to charge a 20% restocking fee. A copy of the invoice must also accompany the return. This applies to tools ordered in error and returned for exchange. Any tool returned for credit must be a current catalog item and must be returned in original packaging and in resalable condition. The correct tool must have been ordered or an off setting order placed. **No tools will be accepted for return after one year from date of purchase.** Southeast Tool, Inc. assumes no liability for returned goods. It is the shipper's responsibility to package the tools in a manner as to avoid damage in transit. Returned freight must be prepaid.

Orders: Orders must be a **minimum of \$50.00 net**. Orders may be placed with Southeast Tool, Inc. by phone, fax, mail, internet, or e-mail. Since orders are processed continually throughout the day, add-ons to orders cannot be guaranteed to ship with other orders that have already been processed.

Special Tooling: Because of the vast resources of Southeast Tool, Inc., we can quote on almost any cutting tool that you or your customer may need. Please send a detail sketch or wood sample for a quotation. You may also e-mail drawings or photos to **quotes@southeasttool.com**. To expedite the quote please include the following: cutting diameter, cutting length, shank diameter, overall length, number of flutes, cutting rotation (i.e. RH or LH). We reserve the right to consider an order complete with 20% over or under ordered quantity. **Specials are not subject to return or cancellation.** Custom tooling may require a deposit prior to manufacturing. Although every effort is made to produce specialty tooling to a customer's specific needs. Any defects must be noted in writing to Southeast Tools, Inc. within 120 days of invoice date

Safety: Always wear eye and ear protection when working with cutting tools. Do not remove any machine safety guards. The grinding of carbide produces hazardous dust that may be harmful to your health; please use precautions and proper ventilation. Always wash hands before eating or drinking anything after handling carbide products.

Drill Chuck, Style 74

Southeast Tool has a large line of industrial keyed chucks available. These cover most internal mounted Jacobs Taper styles, and a large selection of internal thread mounted chucks. Please check with us on any of your chuck needs as these are exceptional in quality and price.

Important Safety Information

- Never fail to remove the key from the chuck after using, always check before drill is turned on.
- Before mounting chuck to a spindle or arbor, thoroughly clean, then firmly press together.
- Never apply extensions of any kind to chuck key handles.
- Never subject chuck key handles to hammer or other impact blows.

ER Tool Extenders

Extension length should not exceed a 4:1 ratio of length to diameter. For example, a 1/2" shank should not extend more than 2" in front of the holder. This is true only for applications where the extension is rotating.

ER High-Speed Nut

HIGH-SPEED

Use ER High-Speed mini nuts for applications where speed exceeds 10,000 RPMs. They are balanced to G2.5 for 20,000 RPMs. These nuts are used on collet holders and multi-spindle heads where center or shoulder distances are important.

Part Number	Description
SE2992	3 Flute Plug Cutter
SE2994	2 Flute Bevel Cutter

If you have ever cut a hole in a piece of solid surface in the wrong place, then you need this set. The bevel bit cuts a taper in the hole that was cut wrong and needs to be repaired. The 3 flute plug cutter cuts a tapered plug that will match the taper from the bevel cutter. Once you have finished you will have a virtually undetectable repair of the solid surface. Effective for repairs up to 1-3/4" in Diameter

CONSERVATIVE VALUES IN THE GRAY

A RANGE OF .007 TO .012 CHIP LOAD IS IDEAL
TO LITTLE CHIP LOAD AND YOU BURN UP THE TOOL
TO HIGH A CHIP LOAD AND YOU BREAK THE TOOL

It is very likely that you will have good results up to 0.017 chip load.

If you would like to calculate your chip load use this formula: Feed Rate in inches per minute divided by RPM's divided by number of cutting edges. Example: Feed Rate of 500in/min divided by 18,000

RPM's divided by 2 (2 flute tool) equals 0.014 chip load.
